

t

After years of experience in the electrical contracting industry, a team of engineering graduates gave birth to an electrical consulting firm in Calicut named PEEC. With the increased demand from market and short of expert companies in the area we clearly fit the bill and we are happy to announce that we could spread our arms to whole districts in Kerala and also to other states as well. Our thorough dedication, expertise in the industry and novice technologies has helped us to satisfy our clients by reducing electrical estimation cost to a great extent.
